

**LOCAL SERVICES BOARD OF RESTOULE
PUBLIC ELECTION MEETING – SATURDAY AT 10:00 AM, SEPTEMBER 15, 2018**

A Brief Overview

Law Suit - Follow up from Oil Leak December 2010

This past Spring Burkhardt Porter, Al Proctor and Jean Mohr were provided with a series of outstanding questions related to the Examination for Discovery of the Plaintiff. Jean Mohr and I coordinated the responses on behalf of the LSB to our Legal Counsel's satisfaction. Hence, this coming September 26th, the proceedings are moving to mediation for possible resolution. No further information is required from the LSB.

Porters Landing Boat Launch – The Final Phase

The final phase of dock improvements was completed this summer with the pouring of a concrete pad to secure the docks at the landing. There continues to be significant parking area pressures at the boat launch which will require possible expansion. Project completed; cost \$1,508.94.

Commanda Lake Boat Launch

The ramp was repaired and a new dock was installed. The solar lighting system for the boat launch has been ordered and is due for installation in the very near future. Funds committed to this project thus far are \$14,018.67. We are currently awaiting proposals on improvements to the parking area. In addition, signage for the boat launch has been ordered.

Legion Building Expansion

The Legion project has been completed and the improvements to the building look fantastic. This expansion will enhance the community programs being offered at the Legion. Our LSB contributions to this project were \$39,650.00 which includes \$5,000.00 for the addition of a steel roof on the old section of the building.

The Restoule Annual Newsletter

A huge thanks Halina and David Dales for collating this year's newsletter. The newsletter was sent out to all the property owners within our catchment area. It was also posted on the "Restoule Enthusiast" website. We received active participation in its development and a lot of positive feedback from our constituents. Project cost \$2,765.74.

Restoule Community Centre – Barrier Free Access and Barrier Free Washroom

Two funding applications were submitted, one to the Federal Government and one to the Ontario Trillium Fund. Both applications were successful and we received \$23,725.00 from Employment Social Development Canada and \$36,100 from the Ontario Trillium Fund. Unfortunately, we were unable to apply both grants to our project so the Federal Funds of \$23,725.00 were returned.

I would like to thank all individuals and users of the Community Centre for their endorsement letters for this project as I am sure they were instrumental in the success of our grants.

The project budget is set at \$48,895.00 consisting of \$36,100.00 from the Trillium Fund, \$5,000.00 from the Restoule Lions Club and \$7,775.00 from the LSB. The drawings are nearing completion and we will be requesting bids next week.

In closing, I would like to take this opportunity to thank the Board of Directors, Susie, John, George and Jean for their support as we would not have been able to accomplish our goals without their help.

Sincerely

Glenn Scanlan
Chair, RLSB
